## Ensuring Data Compliance with the MRC v3 Tag Checker Beta

The new tag checker beta system is accessed via the Validation tab on the grey title bar shown in contract view.

The WHOVS calcalance advises that Co-Insurance Share %", "Deductible Basis", "Deductibe Amount" OR "Deductibe %", "Excess Basis", "Excess Amount" OR "Excess %" tags should appear if they are applicable. You may wish to apply these tags under the heading "Excess" within Bisk: Datalia section if you deem it a "Run MRCv3 Validation dres not have tagis for Doubstrance Shores "S e bar shown in contract view. Conditional and contextuallymandatory requirements that may be unfulfilled are shown on a yellow field. By their nature, it is not possible for the checker to verify them precisely.

This output is also being steadily revised and improved.
