Whitespace Platform Version 1.6.1

Author: Jack Harrison
Date: 21 May 2021

Release Details

This release introduces UI improvements for the Dashboard and bug fixes on browser.

Browser Enhancements

- Introduced "Reset Filters" button to clear all filters in the Dashboard.
- The dashboard "Filter" title and icon has been removed.
- Improved spacing of headings in the Dashboard.
- New icon added to the Risk Name and UMR filters to indicate that they are editable.
- Contract status and type have been added to the My Actions tab of the Dashboard.
- Inception dates have been added to the Labels tab of the Dashboard.
- Teams are now ordered alphabetically when digitising or creating a contract.
- Introduced colour change effect when hovering over clickable elements in the Dashboard.
- Introduced dynamic font sizing for long contract titles in the Dashboard.

Resolved Browser Issues

- Fix to enable off-platform mirror stamps on declarations.
- Removed option to input negative days for notification to followers when recording off-platform endorsement agreement.
- Fix to stop the overlap of the the back button and expanded filters in the facility overview.
- UI fixes for the Dashboard when the screen size is reduced.
- Fix for the positioning of the pin risks popup when clicking the three dots on a risk in the Dashboard.
- Fix to change "Declined Endorsement" status to "Endorsement" when a new endorsement is shown after a carrier declines.

Production Installation and Access Guide

Browser

The Whitespace Platform on Browser will update automatically. If you are already logged in at the time of the update, you will see a notice requiring you to refresh the page.
