

Whitespace Platform

Release Notes v3.1.1

Author: Tim Dedopulos

Date: 14th March 2025

Headline

Tagged dates may once again feature a leading zero.

Enhancements

- A minor issue led to the Defined Data system rejecting date tag fields as invalid if a single-digit date number was expanded to double digits with a leading zero, ie. **01 March** versus **1 March**.
 - This issue has been corrected, and date-related tag fields may once again include a leading zero.
 - Single-digit date numbers are also still valid.
