

Whitespace Platform

Release Notes v3.5.2

Author: Tim Dedopulos
Date: 5th February 2026

Headlines

A bug causing delays when opening contracts has been fixed.

Enhancements

- Certain issues with **GET** commands to the `/api/overview` endpoint – called when presenting data – were causing slow-downs when opening contracts, both on the Whitespace Platform and via API. These issues were more significant for clients with large amounts of data associated with their accounts.
 - The factors slowing down the API endpoint responsible have been corrected, and there are no longer delays when opening a contract either on the Whitespace Platform or via API.

Production Installation and Access Guide

Browser

The Whitespace Platform on Browser updates automatically. If you are already logged in at the time of the update, you will see a notice requiring you to refresh the page.

iOS App

The iOS app has been temporarily withdrawn whilst we redesign it. Watch for news of its exciting relaunch.
