Cross-reference tags are highlighted with a dotted blue box.

Start typing the tag name into the box. You may select it from the list when visible, or type the whole name and press return.

B) MULTI-VALUE TAGS

Some tags are now able to contain more than one value without requiring tag groups, or 'pages'. These values can be added normally, one after another.

Contract heading titles display the number of instances of the tag found under that heading. Regular tags are highlighted with a solid blue box.
