Whitespace Platform

Release Notes v3.2.1

Author: Tim Dedopulos
Date: 28th May 2025

Headline

Stamp references can again include a "-" when passed using the writeLine endpoint.

Enhancements

- A minor issue led to the writeLines API rejecting stamp references as invalid if they included a dash, ie. `"reference": "TEST-REF"`.
  - This issue has been corrected, and stamp references with dashes are again being accepted by the writeLines api.

Production Installation and Access Guide

All versions

This fix does not require any updates or installations.
