

Whitespace Platform

Release Notes v3.5.5

Author: Tim Dedopulos

Date: 13th March 2026

Headlines

A bug that led to pieces of styled text being omitted from exported contracts when created via the interactive digitiser has been fixed.

Resolved Issues

- Templates created via the digitiser stored certain styles of formatted text with slightly different characteristics to regular text. Under certain circumstances, this slightly different text was being omitted from both PDF previews and exports of these templates and of contracts cloned from them.
 - This error has been fixed, and both exports and previews now correctly include all contract text, as expected.

Production Installation and Access Guide

Browser

The Whitespace Platform on Browser updates automatically. If you are already logged in at the time of the update, you will see a notice requiring you to refresh the page.

iOS App

The iOS app has been temporarily withdrawn whilst we redesign it. Watch for news of its exciting relaunch.
