Summary Notes for Data Update v103

Author: Rich Burge

Date: 31st July 2025

Details

1. Added “Not Applicable” value to the US Classification tag dropdown list of values.
2. Added new values for Lloyd’s Risk Codes applicable from 2026:
 - a. CD, CE, CH, CG, ST, TA, TB, WT
 - b. Code TD not added; this is being confirmed with Lloyd’s with clarification questions on usage restrictions given differences in published documentation.
3. Added new “Commercial Property” question set with two new questions:
 - a. Number of Properties (integer answer type)
 - b. Total Insured Value (amount answer type)
4. Extended questions for existing “D&O” question set:
 - a. Balance Sheet Assets (amount answer type)
 - b. IPO Date (date answer type)
 - c. Company Listing (single-select answer type, with list available in the Data Dictionary)
 - d. ADR Type (single-select answer type, with list available in the Data Dictionary)
 - e. D&O Cover Type (single-select answer type, with list available in the Data Dictionary)
5. Added two new tags under the Premium line item heading to support entry for premium and adjustment rates determined as a per mille (one one-thousandth) proportion of a sum insured or other insurable value:
 - a. Premium Rate ‰ (Per Mille)
 - b. Adjustment Rate ‰ (Per Mille)
