

Increasing Written Lines on Contracts Declared to a Facility

1.

When declaring to a facility panel, brokers may increase a non/notify party's line up to the limit of their original written line on their facility agreement if greater than the signed line.

2.

When placing the declaration firm order, click on the facility to show to.

3.

Toggle 'Edit Declaration Line' to on. Parties' lines may be increased without agreement status, so long as the facility written line is not exceeded.

4.

Once the declaration leader has written their line, click 'Bind Notify Parties'.

5.

The notify and non-notify parties are bound as usual.

6.

Please note: You cannot increase lines in this way during signing, only when showing the firm order.
