

# Tagging Data in a Table

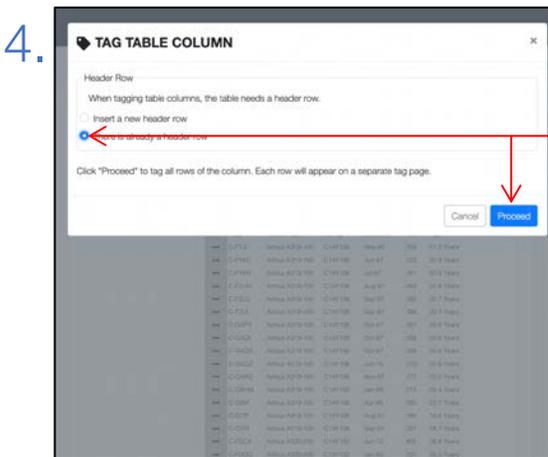

1. Open the contract containing the table you wish to tag and click 'Edit' on the heading holding it

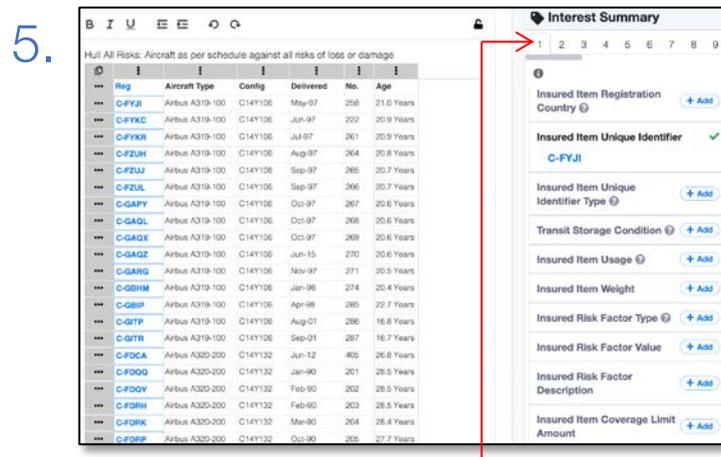

2. Select the tag to apply to the first column for tagging and click '+ Add'

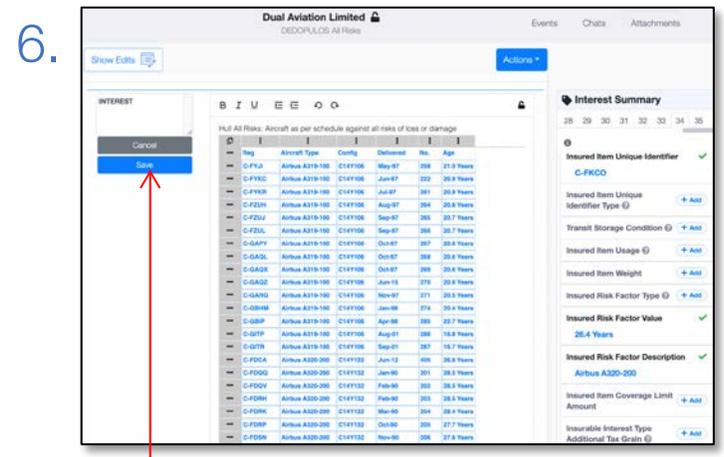

3. Click on the luggage tag icon at the top of the column to open the 'Tag Table Column' box

4. Confirm whether the table has an existing header row or not and then click 'Proceed'

5. Each entry in the column is tagged, and each row is assigned a page of tags as shown at the top of the tag section

6. When you have finished, click 'Save' to save the tags.
